PLASTIC RATTAN  
SINCE 1999

# SYNTHETIC SERIES

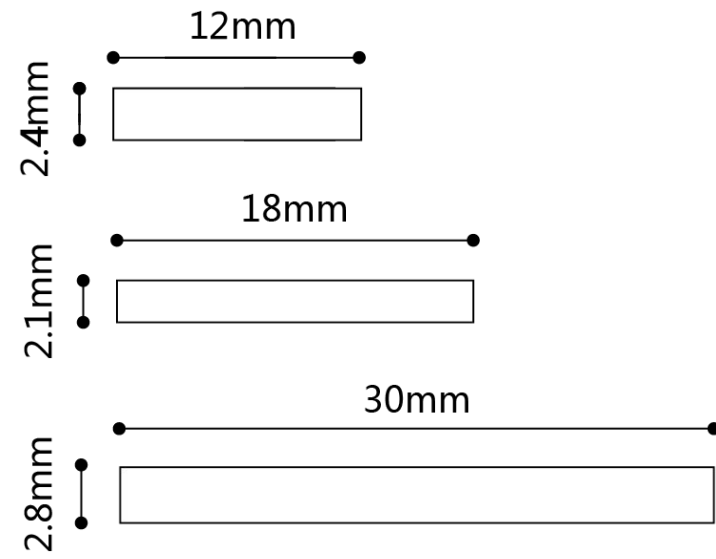

## 仿真系列

The fourth generation of new polymer materials have always been AGO's hot selling products.

In this upgrade, a secondary processing technology has been added on the basis of the original, so that the surface of the product has a suede effect, and the embossing of the product itself makes the overall effect more realistic. Especially, the suede effect of the cloth pattern series achieves the effect of the fake and real webbing.
