BIG SEMICIRCLE SERIES

大半圆系列

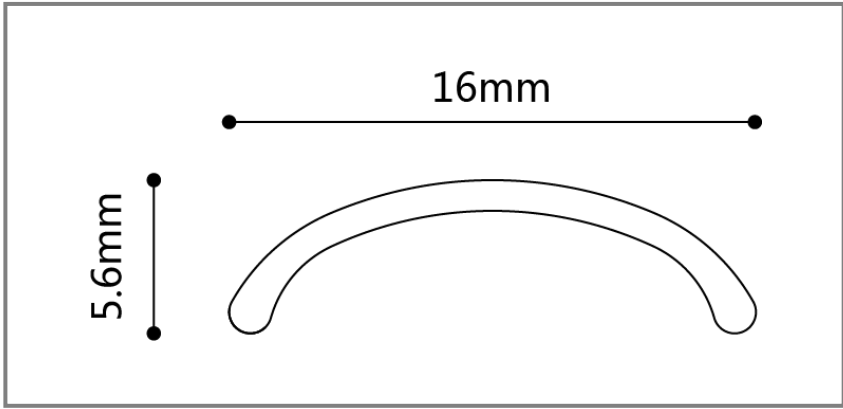

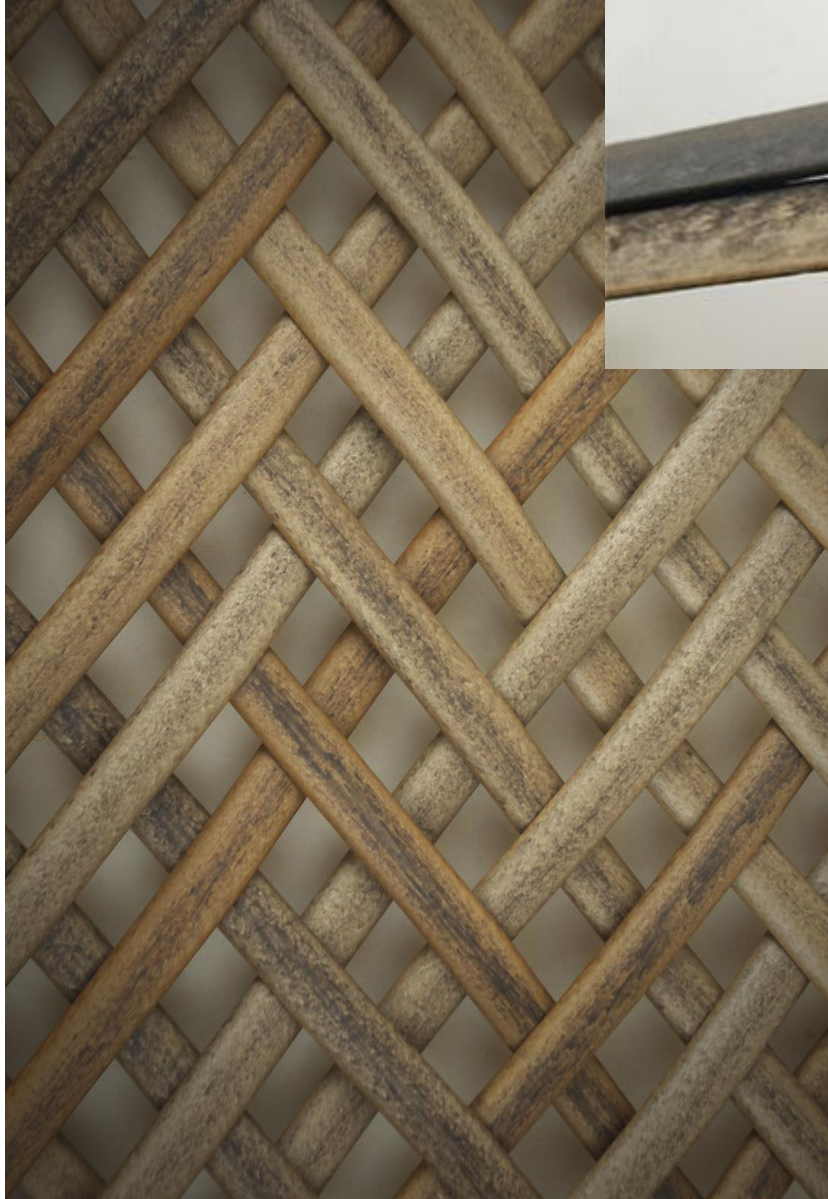

The big semicircle series is inspired by the wicker. Wicker is one of the traditional folk handicrafts in China. Early in ancient times, Wicker has been widely used in people's daily necessities.

The big semicircle series has a rough appearance of wicker, natural texture and color, semicircle structure greatly reduces the weight of the rattan. Compared with natural wicker, PE material has high strength, good flexibility, anti-corrosion, sunscreen and easy to clean.

This rattan is more adapted to the hollowed weaving, unique features, make the product natural and unique.
