

CORN HUSK SERIES

玉米皮系列

Using the rattan with rich natural color and comfortable hand feeling to cocoon the strong rattan inside.

It can not only meet the requirements of vision and touch, but also meet the requirements of strength.

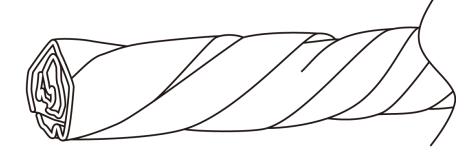

By adjusting the diameter of the inner core to achieve the purpose of the whole finished rattan, this is the flexible advantage of the Corn Husk Series. At the same time, the elastic inner core can also be filled to make the woven surface more comfortable.
