PAPER RATTAN SERIES 纸排系列

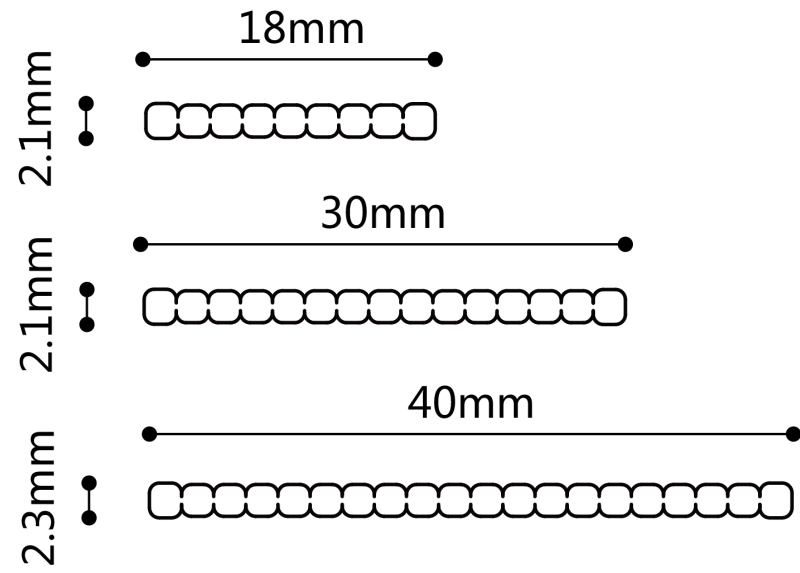

The paper rattan series is a key promotion product of AGO 2024.

The special structure makes this product have very good softness while maintaining tensile strength. The combination of materials and structure, and the addition of special texture effect, make the product finally achieve the real paper arrangement effect and feel, and extremely light weight.

Due to the soft characteristics of this series, the difficulty of weaving is greatly reduced. The flat and wide shape can be used as the flat replacement of the flat webbing, which is a good alternative material for weaving furniture products.
