The Musa

芭蕉皮

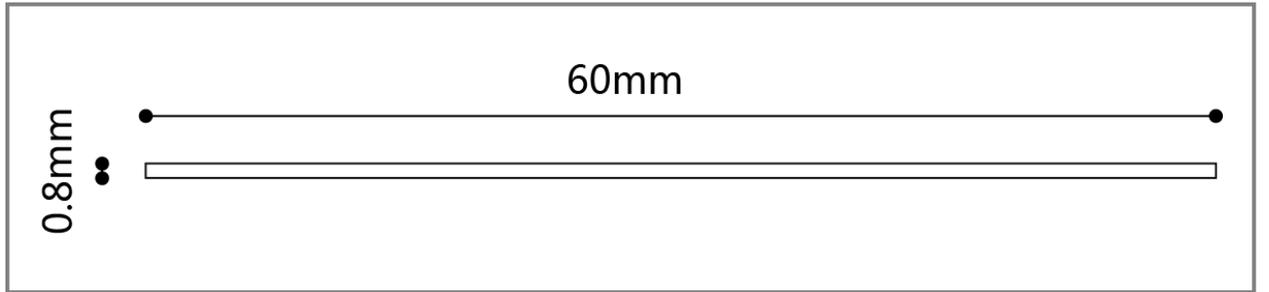

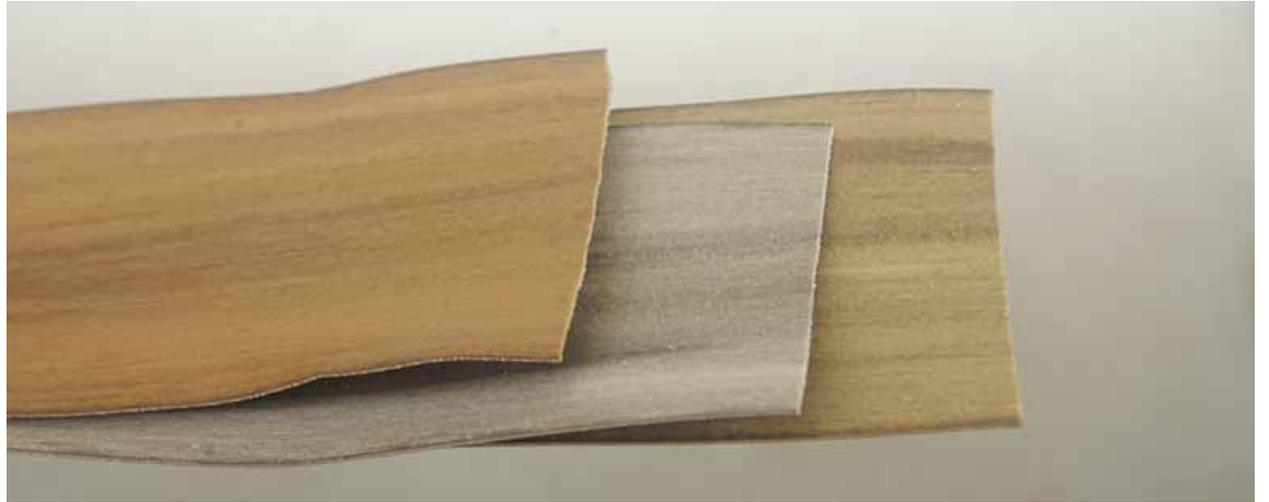

The Musa is a series of new products that we launched in 2019.

After two years of research and development, this product is AGO's new fourth-generation product. Its combination determines the characteristics of the product: Good feeling and look like a real leather, soft and tough, strong tensile force, the most importantly it is extremely light.

This product is ideal for weaving modern minimalist products, simple and textured, luxurious and not high-profile.

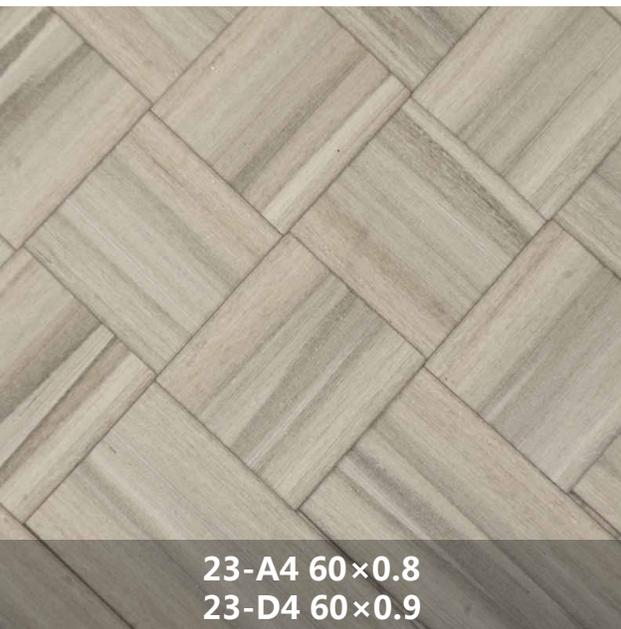

Has applied for a patent, all rights reserved.
