7-M TESTI II

As one of our star products, the M-Testi, with the passage of time and continuous technological innovation, our researchers and developers have improved on the original basis of the product to create a whole new series of products.

The series now comes in four sizes, and even with a simple weave, it is possible to present a unique colour gradient and texture effect, making the product richer and more colourful! A wider range of knitting requirements!

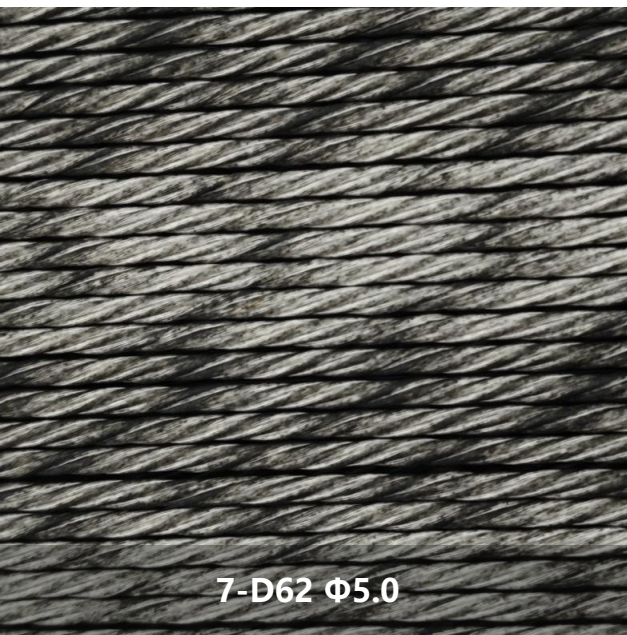

Has applied for a patent, all rights reserved.
