48-D GRAND MAGIC LEAF SERIES

48-D 大魔叶系列

The Magic Leaf W series products are independently developed by AGO, patented, and are the most frequently copied products. For more than a decade, they have remained a staple in the market.

AGO upgrades the Magic Leaf W products almost every year. This time, while retaining the original disordered three-dimensional structure, the size of the product has been upgraded to an extra-wide King Size. This greatly saves weaving time and improves the product's tensile strength.

When woven alone, it gives a rugged texture; when mixed with vines of different specifications and shapes, it highlights a rich tactile texture. It is the preferred material for weaving large area products.

48-D GRAND MAGIC LEAF SERIES

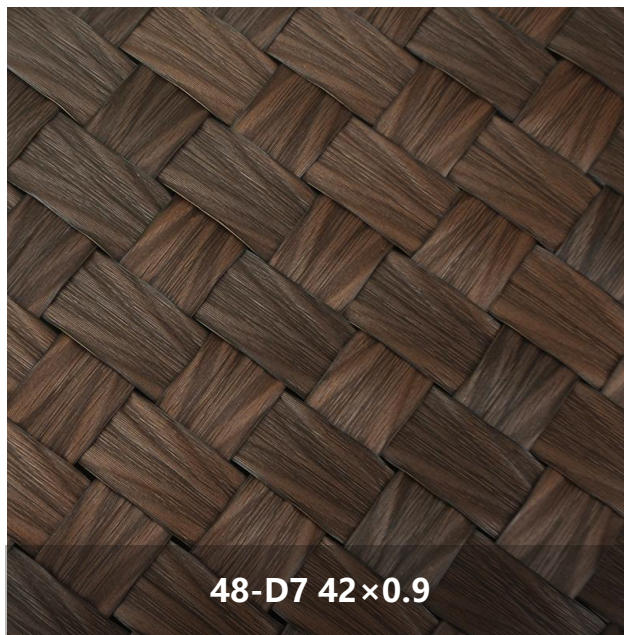

48-D 大魔叶系列

If saying that the previous upgrades of the MAGIC W series only have minor differences, then this upgrade will certainly provide a massive surprise.

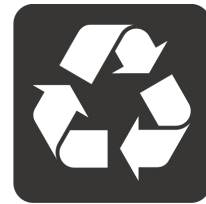

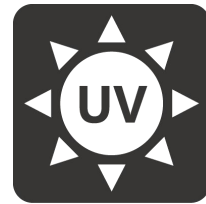

With its realistic colors, natural creases, and soft but full of toughness texture, coupled with a wide size, the Wood Skin Series is the ace among the MAGIC series.

Its wide size greatly reduces the cost of weaving. It is bold and unrestrained simplicity when used alone; combined with smaller-sized rattan, it brings out a delicate feel. The soft texture allows for an attempt to wrap the sponge, offering comfort and novelty.

There are countless MAGIC products on the market, but only the original creators understand the essentials of MAGIC. Only with the essential ideas, products can be developed in a variety of forms, which is a power of originality that Plagiarists will never possess.
