NEW PRODUCT PROMOTION 2026

AGO
SINCE 1999

Crystal Glow Series

The Crystal Glow Series features a hollow structure that naturally exudes a clear, limpid quality and dynamic interplay of light and shadow. The surface offers a soft, lustrous sheen with uniform, premium-grade light reflection and excellent translucency; as light passes through, it diffuses in layers to create a soft, atmospheric glow.

With its hollow tubular design, the material is ultra-light and highly flexible, allowing it to be bent, wrapped, and shaped at will without cracking, deforming, or collapsing. Ideal for lighting fixtures and festive decorations, its vibrant, translucent colors effortlessly create a sophisticated and dreamlike visual effect.

Pure hollow version: offers superior flexibility and structural stability。
